

**Company:** Bethel Contracting LLC  
**Worksite Location:** Oahu, HI  
**FLSA Status:** Exempt  
**Schedule:** Full-Time Temporary  
**Title:** Construction Quality Control Manager

**Summary:**

Bethel Contracting is seeking a Construction Quality Control Manager for Bid-Build and Design-Build infrastructure projects. The CQC Manager will be responsible for creating, implementing, and administering the QC program. Position will ensure compliance with applicable contract documents, government regulations, and other company requirements. The successful candidate must have thorough knowledge and understanding of DOD/NAVFAC/USACE construction and USACE EM 385-1-1 requirements with experience in the areas of hazard identification, safety compliance, and sustainability. The candidate must be able to supervise and coordinate multiple QC specialists, testing laboratory personnel, and any other inspection and testing personnel required. Must be physically able to access the job site, climb ladders, and work around equipment and workers in a safe manner. For consideration, send resume, references, and certifications.

**Essential Duties and Responsibilities:**

- Develop, implement, and administer the QC Plan following the three phases of control.
- Ensure all project personnel and subcontractors understand and comply with the QC requirements.
- Certify that all submittals are in compliance with contract requirements.
- Review plans and specifications to ensure requirements are met for each construction process.
- Complete necessary inspection reports and documentation.
- Inspect and evaluate the adequacy of work performed by craft, staff, and subcontractors; Identify non-conformities, analyze root causes, and take corrective measures.
- Coordinate QC activities with Project Manager and Superintendent.
- Maintain daily paperwork such as reports, log updates, and email.
- Understand and apply federal, state, and local policies, laws, and regulations.
- Establish and maintain effective working relationships.
- Manage and monitor required testing.
- Conduct pre-final/final inspections; establish punch list; and, ensure all deficiencies are corrected.
- Conduct and/or attend QC meetings.
- Maintain and submit as-builts on finished projects.
- Prepare documentation for each definable feature of work in their area of responsibility; Distribute written inspection/test results to appropriate personnel/agencies.

**Essential Skills, Abilities, and Education:**

- High school diploma or equivalent with minimum of five (5) years of combined experience in the following positions: Superintendent, QC Manager, Project Manager, Project Engineer, and/or Construction Manager. At least two years of experience must have been as CQC Manager overseeing Federal construction projects.
- Current Construction Quality Management for Contractors, OSHA 10, and First Aid/CPR certification, or ability to obtain within 60 days of hire.

- Project requires US Citizenship and ability to speak, read, and write fluent English.
- Intermediate skill in MS Word, Excel, and Outlook; Primavera P6 highly desirable.
- Valid state driver's license with acceptable driving record.
- Ability to successfully pass background/security checks
